

Curriculum Vitae – Valerio Lucarini

Name	Date and Place of birth	Nationality
Valerio Lucarini	11/08/1976, Ancona, Italy	Italian

ORCID ID

<https://orcid.org/0000-0001-9392-1471>

Institutional Address

Department of Mathematics & Statistics, University of Reading, RG6 6AX, Reading, UK.

Phone: +44(0)1183788987

Email: v.lucarini@reading.ac.uk

www: <https://www.reading.ac.uk/maths-and-stats/about/team/professor-v-lucarini.aspx>

Primary Affiliation

Department of Mathematics & Statistics, University of Reading, Reading, UK

Other Affiliations

Walker Institute, University of Reading, Reading, UK

CEN – Center for Earth System Research and Sustainability, Institute of Meteorology, University of Hamburg, Germany

Center for Environmental Policy, Imperial College London, UK

Academic Education

2003 PhD, Physics, University of Joensuu (now University of Eastern Finland), Joensuu, Finland

2002 MSc, Climate Physics & Chemistry, Massachusetts Institute of Technology, Cambridge, USA

1999 Diploma, Physics, Scuola Normale Superiore, Pisa, Italy

1999 BSc, Physics, University of Pisa, Pisa, Italy

Recent Professional Employment

2017– Professor of Statistical Mechanics & Director, Centre for the Mathematics of Planet Earth, University of Reading, UK

2011–2016 W3-Professor of Theoretical Meteorology & Vice-Director of the Meteorological Institute, University of Hamburg, DE

2009-2011 Lecturer in Mathematics and Meteorology, University of Reading, UK

2007-2009 Assistant Professor in Earth System Physics, University of Bologna, IT

Recent Teaching Activity

2017-: Statistical Mechanics, Uni. Reading

2016-: Dynamical Systems, Graduate School MPECDT, Imperial College/Uni. Reading

2012-2016: Theoretical Meteorology, BSc, MSc level, Uni. Hamburg

2009-2011: Dynamical Meteorology; BSc, MSc level, Uni. Reading

2009-2011: Topics in Applied Mathematics, BSc level, Uni. Reading

2007-2009: Physics of Climate, BSc, MSc level, Uni. Bologna

2007-2009: Advanced Geophysical Fluid Dynamics, Graduate School CMCC-Ca' Foscari, Venice

Selected Honours

2020 L F Richardson Medal, European Geosciences Union

<https://www.egu.eu/awards-medals/lewis-fry-richardson/2020/valerio-lucarini/>

2019 Gold Medal (Ciriachino d'oro), City of Ancona

<https://www.vivereancona.it/2019/04/30/decise-le-benemerenze-i-ciriachini-doro-a-antonio-centomani-pietro-leoni-e-valerio-lucarini/728058/> (in Italian)

2018 Whitehead Prize, London Mathematical Society

<https://www.lms.ac.uk/news-entry/29062018-1745/2018-lms-prize-winners>

2018 Von Humboldt Connect Fellowship

2017 Top Highlight Paper for the journal Nonlinearity

<https://iopscience.iop.org/journal/0951-7715/page/Highlights-of-2017>

2016 Best Contribution, Frontiers of Nonlinear Physics, Russian Academy of Sciences
2010 Outstanding Young Scientist (now Arne Richter) Award, European Geosciences Union
<https://www.eGU.eu/awards-medals/arne-richter/2010/valerio-lucarini/>

2006 Volta Prize, A. Volta Foundation, Como
2003 Best Contribution in Condensed Matter Physics, Conference of the Italian Physical Society.
2001 Global Change Fellowship, American Meteorological Society.
2000 Charney prize, Department of Earth, Atmospheric, and Planetary Science, MIT.
2000 Italian Physical Society Award for Best Young Scientist

Selected Funding

2019-2021 Co-PI (one of 3) EPSRC project Applied Nonautonomous Dynamical Systems (300 k£)
2019-2023 Co-PI (one of 16) EU Horizon2020 Project TiPES (8 M€)
2017-2019 PI (individual grant) Royal Society/RFBR UK-Russia Bilateral Grant (30 k£)
2016-2019 Co-PI (one of 4), Belmont Forum Project BITMAP (1.4 M€)
2015-2019 Co-PI (one of 40), EU Horizon2020 Project Blue Action (8 M€)
2016-2020 Co-PI (one of 25), SFB/Transregio DFG Energy Transfers in Atmos. & Ocean (10 M€)
2015-2019 Co-PI, one of 25) EU Horizon2020 Project CRESCENDO (13 M€)
2015-2018 PI of the DFG Project MERCI (150 K€)
2015-2018 Co-PI, (one of 4) Climate-KIC project WINNERS (2.0 M€)
2015-2019 Co-PI (one of 3) DWD Ertel Center on Atmospheric Convection ARCS (900 k€)
2015-2018 PI (sole beneficiary) FP7 Marie Curie project SPARCS (280 k€)
2012-2017 Co-PI (one of 25) of the German DFG Cluster of Excellence CLISAP2 (33M€)
2012-2015: Co-PI BMBF project CLASH, 90 K€
2012-2015: Co-PI BMBF project CARBIOCLAL, 90 K€
2010-2015 PI for ERC Starting Investigator Award, FP7-ERC Grant NAMASTE (1.4 M€)
2006-2007 PI (one of 11) of the EU INTERREG IIIB project HYDROCARE (2.5 M€)

Main Scientific Achievements

- New rigorous physical and mathematical interpretation of climatic tipping points using thermodynamics, statistical mechanics, and the theory of edge states;
- Theoretical contributions to response theory for non-equilibrium systems and application to climate change and climate variability;
- Interpretation of atmospheric instabilities and blockings through the formalism of covariant Lyapunov vectors, Lyapunov exponents, and Unstable Periodic Orbits;
- New statistical mechanics-based general strategy for parametrization of multiscale systems;
- New theory of extreme value laws for deterministic and stochastic dynamical systems and applications in geosciences;
- Theory of nonequilibrium thermodynamics of climate & planetary atmospheres; definition of efficiency and entropy production;
- Evaluation of performance of global climate models in the Himalayan region;
- Definition of equivalent nonequilibrium statistical mechanical ensembles;
- New dispersion relations and sum rules for nonlinear optics;

Dissemination Activities

- 123 peer reviewed publications, 2 books, 8 book chapters; >50 1st author, incl. 12 sole author
- h-index 38 with >4300 citations (google scholar).
- Review papers: Reviews Modern Physics, Reviews of Geophysics, Bulletin American Meteorological Society, Atmospheric Research, Rivista del Nuovo Cimento, Current Climate Change Reports, Communications in Computational Physics, WIRES Climate Change, Symmetry
- Edited special issues for Tellus; Earth System Dynamics; Chaos, Solitons & Fractals; J. Statistical Physics
- In Preparation: book “Statistical Mechanics of Climate” (CUP).
- >70 invited seminars: e.g.: Uni. Oxford, Uni. Cambridge, Uni. Aberdeen, Uni. Exeter, Imperial College, Uni. Edinburgh, Heriot-Watt Uni, QMUL, Uni. Loughborough, Uni Utrecht, Uni Amsterdam, Uni. La Sapienza, Uni. Tor Vergata, Uni. Firenze, Uni. Torino, Uni. Trento, Uni.

Genova, SNS, SISSA, Lomonosov Uni., Russian Hydrometeo. State Uni., ENS-Lyon, ENS-Paris, MIT, Rutgers, Uni. Washington, ETH, Uni. Bern, Eötvös Uni., Uni. Wien, Uni. Frankfurt, Uni Bonn, Uni Mainz, Uni. Marburg, Frei Uni. Berlin, NTU, JNU, Delhi Uni, IIT-Delhi, NYU-Abu Dhabi, CEA, CNRS, CNR, ECMWF, CMCC, RMI, WMO, CNRS, GFDL, Institute of Numerical Mathematics – Rus. Academy Sci., Institute of Applied Physics– Rus. Academy Sci., Institute Atmos. Sci – Chinese Academy Sci., IITM-Pune, NORDITA, ICIMOD, Lorentz Centre, I. Newton Institute, PIK-Potsdam, ZiF-Bielefeld, CLISAP, MPI Complex Systems, Institut Poincaré, Centre Physique Théorique-Marseille, Banff Research Station, ICTP

- Organizer/co-organizers of >60 international conferences/workshops/sessions.

Scientific Visits/Residencies

École Normale Supérieure (Paris, FR), CNR (Bologna, IT); Institute of Numerical Mathematics – Rus. Acad. Sci. (Moscow, RU); Indian Institute of Technology - Delhi (Delhi, IN); Indian Institute of Tropical Meteorology (Pune, IN); Eötvös University (Budapest, HU); Institute Atmos. Sci– Chinese Acad. Sci. (Beijing, PRC); NORDITA (Stockholm, SE); Russian Hydrometeo. State Uni. (St. Petersburg, RU); ICIMOD (Kathmandu, NP); NORDITA (Stockholm, SE); Lorentz Centre (Leiden, NL), I. Newton Institute (Cambridge, UK), PIK (Potsdam, DE), ZiF (Bielefeld, DE) MPI Complex Systems (Dresden, DE), Institut Poincaré (Paris, FR), Centre Physique Théorique (Marseille, FR), CLISAP (Hamburg, DE), Banff Research Station (Banff, CA), ICTP (Trieste, IT)

Supervisions and Co-supervisions

2005- 10 PostDoc scientists; 10 Ph.D. students, 15 Research BSc and MSc students

2011- Grad. Schools Board: IMPRS (Hamburg); MPECDT (London/Reading); CRITICS (EU ITN)

Former graduate students have been awarded the European Space Agency Young Graduate Trainee Fellowship (A. Nikolaou), the European Geosciences Union (EGU) Early Career Researcher Award (D. Faranda), and the American Geophysical Union (AGU) Turcotte award (M. Galfi).

Former PostDocs have been awarded NOAA Fellowship (S. Pascale), Marie Curie and Axa Fellowships (J. Wouters), IBS Busan Young Scientist Fellowship (T. Bodai)

Selected community services

2019 - Editor, section nonlinear processes in geosciences, Springer book series “Physics of Earth and Space Environments”

2017 - Editor, section Weather, Climate, Oceans, Springerbriefs book series “Mathematics of Planet Earth”

2017- Leader for the subdivision of Mathematics of Planet Earth, EGU

2013: London Mathematical Society representative for Mathematics of Planet Earth Programme

2010- Editorial Board: Nonlinear Processes in Geophysics; Mathematics of Climate and Weather Forecasting; European Physical Journal Plus, Earth System Dynamics (Since 2013: Chief Editor).

2005- Research Committees & PhD panels in >10 countries on physics, mathematics, & geosciences

2001- Reviewer for many peer-reviewed journals & >10 book ideas in physics, mathematics, geosciences, and interdisciplinary sciences

Fellow: Royal Meteorological Society, Institute of Mathematics and Applications.

Member: Society for Industrial and Applied Mathematics London Mathematical Society, European Geosciences Union, American Geophysical Union, American Physical Society, Italian Physical Society, Institute of Physics

Selection of recently/forthcoming organised events

2020 SIAM-MPE Minisymposium Climate Variability and Change – A Mathematical Perspective, Orange County, USA

CIMPA Summer School on Mathematics of Climate Science, Kigali, RW

2019 LMS/IMA Joint Meeting, University of Reading, UK

Programme, The mathematics of climate and environment, I. Poincaré, Paris, FR

School, Physics & Mathematics of Turbulent Flows at Different Scales, Les Houches, FR

Short Course at the Annual Assembly of the European Geosciences Union, Vienna, AT

2018 IUTAM Workshop Stochastic Approaches to Transitions in Fluid Flows, Ithaca, USA

	Workshop on Nonequilibrium systems in Physics, Geosciences, & Life sciences, ICTP, Trieste, IT
	CliMathNet Conference, Reading, UK
	32nd IUGG Conference on Mathematical Geophysics, Nizhny Novgorod, RU
	Royal Society Workshop, Frontiers of Science, Dorking, UK
	Short Course at the Annual Assembly of the European Geosciences Union, Vienna, AT
2017	School of Physics Diversity of planetary circulation regimes, in our Solar system and beyond, Les Houches, FR
	CliMathNet Conference, Reading, UK
2016	DAMES Conference, Hamburg, DE
	Short Course at the Annual Assembly of the European Geosciences Union, Vienna, AT
2015	Summer School, Statistical and mathematical tools for climate extremes, Cargese, FR
	Session at German Mathematical Society 2015 Assembly, Hamburg, DE
	Session at Dynamic Days 2015, Exeter, UK
2014	DE/RU Workshop, Instabilities & Fluctuations in Geophysical Flows, Hamburg, DE.
	Workshop, Mathematics for the Fluid Earth, London Mathematical Society, London, UK.
2013	Scientific Programme, Mathematics of Fluid Earth, I. Newton Institute, Cambridge, UK
	Conference, Statistical Mechanics & Theory of Extremes in Earth Science, Reading, UK

Selection of Recent Invited Presentations at Workshops and Conferences

2021	Workshop Linear Response: Rigorous Results and Applications, Geneva, CH (forth.)
2020	Phase space analysis in complex system, Dresden, DE (forth.) (keynote)
	SIAM Uncertainty Quantification Conference, Munich, DE (forth.)
	ICTAM 2020, Milan, IT (forth.) (keynote)
	EGU 2020 – L.F. Richardson Medal Lecture, Vienna, AT (forth.) (keynote)
	Mathematical validation of climate studies, Pisa, IT (forth.) (keynote)
	Critical Transitions in Complex Systems, Shanghai, PRC (forth.)
2019	Dynamical Systems and Beyond, University of Pisa, Pisa, IT (keynote)
	Dynamical Systems and Thermodynamic Formalism, CIRM, Marseille, FR (keynote)
2018	Dynamics Days 2018, Loughborough, UK
	European Geosciences Union, Vienna, AT
	Barbican Art Centre, London, UK
2017	Statistical Mechanics Conference, Rutgers University, New Brunswick, USA (keynote)
	Workshop, Transport in Unsteady Flow, Banff International Research Station, CA
	Advanced School on Climate Extremes, TERI University, New Delhi, IN (keynote)
	Workshop Random Dynamical Systems, Lorenz Center, Leiden, NL (keynote)
	WMO Workshop, Geneva, CH
2016	American Physical Society March Meeting, Baltimore, USA
	Workshop “Multistability and Tipping”, MPI-Complex Systems, Dresden, DE (keynote)
	Chaos Conference, London, UK (keynote)
	American Institute of Mathematical Sciences Meeting, Orlando, USA
	Solvay Institute, Nonequilibrium & nonlinearity in statistical mechanics, Bruxelles, BE
	Workshop, Thermodynamic analysis for atmospheric and oceanic flows, Abu Dhabi, UAE
2015	Statistical Mechanics Conference, Rutgers University, New Brunswick, USA (keynote)
	International Conference for Marchuk’s 90 th Birthday, Moscow, RU (keynote)
	Theoretical Advances in Planetary Flows & Climate, Les Houches, FR (keynote)
	Workshop “Mathematical approaches to climate sensitivity, Utrecht, NL (keynote)
	Spanish Conference of Statistical Physics, Badajoz, ES (keynote)
2014	International Symposium Topical Problems of Nonlinear Wave Physics, N. Novgorod, RU (keynote)
	Workshop, Theory of Climate, Lorenz Center, MIT, Boston, USA (keynote)
	German Physical Society Advanced School, Bonn, DE (keynote)
	German Astronomical Society Annual Conference, Hamburg, DE (keynote)
	Italian Physical Society Annual Meeting, Pisa, IT (keynote)
2013	IMA Mathematics 2013, London, UK (keynote)
	ICMS Workshop, Edinburgh, UK (keynote)
	AGU Meeting of the Americas, Cancun, MX

PUBLICATIONS

Preprints

- a) V. Lembo, **V. Lucarini**, F. Ragone, Beyond Forcing Scenarios: Predicting Climate Change through Response Operators in a Coupled General Circulation Model, arXiv:1912.03996 submitted to Scientific Reports (2019)
- b) V. Eyring, ..., **V. Lucarini**, ..., ESMValTool v2.0 – Extended set of large-scale diagnostics for quasi-operational and comprehensive evaluation of Earth system models in CMIP, Geosci. Model Dev. Discuss. in review (2019)

Books
